**Subject:** Meeting soonish if at all possible

Hi Susan, I know you are extremely busy, but am hoping we might be able catch up soonish to chat?  
There are some issues emerging that would be good to chat about quickly, including the about to be launched Oceanic Research Institute and Adjunct appointments for Earle de Blonville [REDACTED] (Background and

CVs attached). I've just finished another meeting [REDACTED] and the ORI provides enormous opportunities for SCU in research and engagement partnerships and [access to big philanthropic funding for ORI](#) and therefore support for environmental researchers and research at SCU.

Sorry to add to your requests, but the ORI process is becoming urgent and if SCU doesn't get involved very soon we will miss an opportunity

Thanks, Peter
