Hi Aurora,

Thanks so much for getting in touch with me. Though we never met, it was clear to me that your mother was a smart, strong woman and as the Mongolians say "warm hearted". We spoke on the phone at length several times and as you no doubt have seen, exchanged many emails.

I'm continuing the research on Earl and part of my motivation is to show that con men like Earl, no matter how clever they are or how charming and no matter how much they bluster and threaten, they can be brought to some kind of justice, exposed for who they are, by steady, methodical gathering of facts to counter the elaborate delusional lies that Earl weaves.

My best to you and all of Susie's friends who miss her. You can follow the research on Earl at earldeblonville.net and I am happy to keep you informed of any major developments.

Hi Kent,

I noticed you've written to my mother Susie Surtees recently. I need to share with you the sad news that she had an unexpected heart attack and is no longer with us.

You should also know she had a wonderful day at an art gallery, and was with a new loving partner when it occurred. She has been very happy lately.

She told me of your wonderful work in exposing Earl for the phony he is. And I do hope that you continue. It was some solace to her after her awful experience with him.

Thank you.

Susie's daughter,

Jane Aurora
